

Yesterday, the Cuyahoga County Board of Health (CCBOH) issued a recommendation to "discontinue extracurriculars such as sports, band, theater, choir and other activities during the remote learning period." **Effective Saturday, August 1st, at 7 am, all athletic and extracurricular activities will be suspended until further notice.** Additionally, the district administrative team will be assessing the other recommendations from the CCBOH. Any adjustments to our previously announced Restart and Reopening Plan will be communicated early next week so that staff and families have sufficient time to prepare. This is an incredibly sad development for all of us, especially for our students and staff that have worked so hard this summer. I am hopeful that the measures that we take today will give our staff and students the opportunity to compete and perform this fall season!
